## APPOINTMENT OF GROUP MANAGING DIRECTOR

### Synergie Cad Strengthens Leadership with Nomination of Krishna Sreerambhatla as Managing Director

---

**Carros, France – July 3, 2025** – Synergie Cad Group, a leading provider of semiconductor test interface solutions with testing and packaging capabilities, today announced the nomination of Krishna Sreerambhatla as its new Managing Director.

This strategic appointment underscores Synergie Cad's commitment to accelerating its growth and strengthening its market position. Krishna will assume full responsibilities of CEO and Managing Director at the end of 2025, succeeding Alain Librati, the esteemed founder and CEO of Synergie Cad, who will ensure a smooth handover throughout the remainder of the year.

Krishna Sreerambhatla will be responsible for leading Synergie Cad in executing its strategy to become a global leader in semiconductor test consumables and equipment space. This will involve leveraging the company's unique capabilities in test engineering and driving new initiatives to meet evolving industry demands.

With over 27 years of experience in the semiconductor device and semiconductor equipment sector, Krishna brings a wealth of expertise in both technical innovation and strategic leadership. Prior to joining Synergie Cad, Krishna held numerous key leadership roles at NXP, ASML, Applied Materials, and ASM international where he led cross functional global teams and played a key role in driving substantial growth through geographical sales expansion, product development, product marketing, scaling operational scaling, and fostering strategic partnerships

*"We're incredibly pleased to welcome Krishna to Synergie Cad," said **Alain Librati**, founder and CEO of Synergie Cad Group. "His leadership, deep industry knowledge, and commitment to innovation align perfectly with our vision for Synergie Cad's future. We are confident that Krishna will play a pivotal role in guiding the company through its next phase of growth and success. I look forward to working closely with him during the transition to ensure continued momentum and success."*

*"Krishna's extensive experience and proven track record in the semiconductor industry make him the ideal leader to drive Synergie Cad's strategic initiatives" said **Christophe Duverne**, Chairman of the Board. "His appointment marks a pivotal moment as we accelerate our journey to become a global leader in semiconductor test consumables, further solidifying our commitment to innovation and customer success. The Board is also incredibly grateful to Alain Librati, Synergie Cad's founder and CEO, for his immense contributions and looks forward to a successful transition period."*

*"I am honored to be appointed as Managing Director of Synergie Cad," said **Krishna Sreerambhatla**. "Synergie Cad has a strong legacy of innovation and a highly skilled team dedicated to solving the most complex challenges in test engineering. I am excited to collaborate with Alain and the entire organization to deliver differentiated solutions that enable*

*our customer roadmaps and solidify Synergie Cad's position as a trusted partner in the industry. Ensuring a smooth transition and uninterrupted operations for our customers, suppliers and ecosystem partners will remain a top priority."*

### **About Synergie Cad Group**

Founded in 1986 and based in Carros, France, Synergie Cad Group is a leading European provider of semiconductor test consumables. The company offers a wide range of services, including design of complex test interface boards, probe cards, burn-in boards, burn-in ovens, and test and packaging services. With operations across Europe, Asia, and North America, the company is renowned for its quality, reliability, and customized products, serving a diverse range of applications in the semiconductor industry.
